AGREEMENT NO. 1150 (REVISION 1)

Dear Zachary Crouch, P.E.:

The referenced project above was approved on March 29, 2022. One set of signed/approved plans are enclosed for your files.

This approval is valid for three years. If additional time is needed, apply for a time extension before the expiration of this approval. All time extensions are granted and approved through the County Engineering Department. All plans in the extension time are required to meet any current and updated specifications.

Also, it is your responsibility to secure approvals and/or permits that may be required by other regulatory agencies.

Please contact Mr. Keith Bryan in the Department's Division of Utility Engineering to initiate pre-construction procedures for sanitary sewer.

Should you have any questions, do not hesitate to contact me.
